

"I suffered habitually from constipation. Doan's Reglets relieved and strengthened the bowels, so that they have been regular ever since."—A. E. Davis, grocer, Sulphur Springs, Tex. •

Read the Republican for live news

In these days of high cost of living, a medicine that gets a man up out of bed and able to work in a few days is a valuable and welcome remedy. John Heath, Michigan Bar, Cal., had kidney and bladder trouble, was confined to his bed, unable to turn without help. "I commenced using Foley Kidney Pills and can truly say I was relieved at once." His example is worth following.—Co-operative Drug Co.

## A NEGRESS FOR WHOSE CAPTURE A PRIZE OF \$40,000 WAS OFFERED

In the August American Magazine appears an article about Harriet Tubman, a negress, now nearly 100 years old, who escaped from slavery before the Civil War, and with a price on her head guided hundreds of negroes by the "Underground Railroad" to Canada. She was appointed a scout in the war and draws a pension. Following is an extract from the article:

"No one knows exactly when Harriet Ross was born, but it was on the eastern shore of Maryland and not much less than a hundred years ago. She knows that her mother's mother was brought in a slave ship from Africa, that her mother was the daughter of a white man, an American, and her father a full-blooded negro.

"Harriet was not large but she was very strong. The most strenuous slave labor was demanded of her—summer and winter she drove ox carts—she ploughed—with her father she cut timber and drew heavy logs like a patient mule. About the year 1844 she was married to a freed man named Tubman. He proved unworthy and deserted her. She determined to try and escape from slavery and induced her two brothers to go with her. The three started together, but the brothers soon came frightened and turned back. Harriet went on, alone. All through the night she walked and ran—alone. When she reached a place of safety it was morning. She says: 'I looked at my hands to see if I was the same person, now I was free—there was such a glory over everything, the sun came like gold through the trees and over the fields and I felt like I was in heaven!' Not one to enjoy heaven alone was that generous heart. Nineteen times did she return to the land of slavery; and each time brought away to Canada groups of men, women and children, her parents and brothers among them about three hundred in all. A prize of \$40,000 was offered for her capture, but Harriet was never caught! She delights to recall the fact that on all those long and perilous journeys

### THE VOICE OF THE "FAN" AND ITS EFFECT UPON BASEBALL PLAYERS

In the August American Magazine, Hugh S. Fullerton writes an amusing and entertaining article on the baseball "fan." Following is an extract:

"It is a magnificent crowd, wonderful in its spirit and in its intense loyalty. There are few things that shake an opponent like the incessant: 'Get a hit, 'Get a hit,' which is the war song of the Sog rosters when they scant victory.

"One of the most dramatic displays of loyalty I ever saw was in 1907 when the team, beaten and displaced from the championship, came home to close the season. They had gone away in high hopes, and failed. It was Sunday, and as the defeated team marched down the field seven thousand men and women stood silent and uncovered for a moment then broke into applause that swept the stands. It is small wonder that a team backed always by such loyalty seemed much weaker than its opponents won even during years when it seemed much weaker than its opponents.

"I have heard opposing players declare they would rather face anything in the game than the grinning 'rooting' of the Chicago South Side fans. The only duplicate I know is the grasping, nerve racking, long Yale yell.

"Not all players are frank enough to admit the rooting has any effect. Indeed it is a common pose to pretend that they do not even hear. But they do. Even among themselves they pretend they do not care; but once in a while they tell their inner feelings. They know that half the men who quit the major leagues are driven out by the voice of the fan. I have seen men break and go all to pieces, rave and swear and abuse everyone after suffering a cruel grilling by a crowd.

"Walter Wilmont, one of Anson's famous old Chicago players came to game on the old grounds fifteen years after retiring. He looked across toward the left field and said: 'There's some of them out there now I'd like to choke.'"

Miss Keen—Oh, No; I inherit a wonderfully strong constitution.—Boston Transcript.

leys on the 'Underground Railroad'—never just a passenger! Her belief that she was and is sustained and guided by 'the spirit of the Lord'—absolute.

"Among the many men of note who trusted and encouraged the intrepid little woman were Wendell Phillips, William Lloyd Garrison, Thomas Garrett, William H. Seward, Emerson, Alcott, Dr. Howe and Gerrit Smith. Frederick Douglas wrote of her, 'Excepting John Brown, I know no one who has encountered more perils and hardships to serve our enslaved people.' John Brown said, 'Mr. Phillips, I bring you one of the best and bravest persons on this continent, "General Tubman," as we call her.' He also said, 'She is the most of a man, naturally, that I ever met with.' This war-time general now speaks with tender reverence—'John Brown, my dearest friend'—and she whom he called 'the mother of a man' is also more of a mother than most women. She founded a maintains a home for colored men and women. She 'dwells in the midst of them, singing.'"

### NATHAN SWARTZ COMMITS SUICIDE

Murderer of Little Julia Connors Left Note Saying He Was Guilty and Insane.

New York, July 18.—The body of Nathan Swartz whose father informed the police that his son was the slayer of 14-year-old Julia Connors, was found early today on the floor of a tenement house on Christie street. Swartz had committed suicide by inhaling gas. The body was identified by Detective Joseph Brennan.

Swartz had hired the room eight days ago under the name of M. Hirsakowitz from Max Kaplan. Early today Kaplan smelled gas. On investigation he found Swartz at the end of a gas pipe in the middle of the ceiling tied to his mouth.

Written in lead pencil on his collar were the words:

"I am guilty and insane." There were several pieces of newspaper lying around and on one of these was written the sentence: "I was sorry the minute after I did it. So don't cry for me."

A letter was found addressed to Swartz's mother in which he confessed his guilt and told her not to cry her eyes out. Later, Philip Swartz a brother of the slayer of the Connors girl, identified the dead man as his brother.

Only a few days ago Swartz's father informed the police that his son had told him that he had killed the Connors girl to which the father responded that there was nothing left but for the son to commit suicide.

### DISCOVERY OF AMERICA COST COLUMBUS \$7,600

Madrid, July 18.—The cost of the discovery of America was \$7,600, according to ledgers just found at Potos, Spain, containing facts concerning the outlay made by Christopher Columbus on his expedition to the new world. The armament of the fleet cost \$2,800. The personal expenses of Columbus and his officers amounted to about \$400 and \$4,400 was spent during the voyage. According to the ledgers the crew received a monthly wage of \$1.25.

### A NEW GUESS ON AGE OF EARTH

Reviewing the guesses as to the age of the earth that have been made, Prof. J. Bosler, at a meeting of the French Astronomical society, mentioned first that the rate of the sun's heat emission, supposing it to depend entirely on contraction under gravitation, gives evidence that the present radiation has continued not more than 20,000,000 years. This calculation, which is made very uncertain by the unknown effect on solar heat of radioactivity, would limit the age of the earth a similar time. Turning to the rock strata, the total thickness of the sedimentary deposits is found to be about fifty miles, and, at the sea's present rate of depositing material—two and a half inches a century—about 80,000,000 years must have elapsed since the deposition of rocks on the earth began. The salinity of sea water has given Prof. Joly of Dublin the basis for another estimate. The salt in the ocean would entirely cover the continents to a depth of nearly 300 feet, and as this has been all washed from the land by rain, the present rate of ad-

dition shows that the process has been going on about 100,000,000 years. The presence of helium has given rise to estimates of age, ranging from 7,000,000 years for an oligocene rock to 710,000,000 years for a specimen of archaean times.
